This manual contains important safety, assembly, operation and maintenance information. Please read and fully understand this manual before operation. Save this manual for future reference.

Always wear approved helmet and safety equipment when using this product.

See back page for Customer Service Information
WARNING:
The user must be **13+ years**, and weigh no more than **198 lb (90 kg)**.

**IMPORTANT!** Before using the unit for the first time fully charge the Battery. Battery Charger will shut off when Battery is fully charged, but **never charge longer than 12 hours**.

This product meets ASTM F963 and CPSIA requirements for electric vehicles.
WARNING - TO AVOID SERIOUS INJURY:

Failure of the rider to obey the following Safety Warnings can result in serious injury or death. Check local laws governing the use of electrical vehicles.

- **ADULT RIDERS ONLY.**
- **SUPERVISION NECESSARY WHEN USED NEAR CHILDREN.**
- **DO NOT USE THE VEHICLE IN AN UNSAFE MANNER OR AT AN UNSAFE SPEED. Not intended for jumps - this can damage the product.**
- **CHOKING HAZARD:** Small parts, adult assembly required.
- Before using this product, fully understand the controls and safety issues. Riders must demonstrate the capability and skill to handle the vehicle and operate its controls to avoid falls or collisions.
- Obey all traffic regulations, signs, and signals.
- Before each ride, check that the steering system is correctly adjusted and that all connection components are firmly secured and not broken.
- While using the product, keep hands and fingers away from wheels and other moving parts to avoid danger of pinching or entrapment.
- Riders should always wear a properly fitted helmet that complies with U.S. Consumer Product Safety Commission (CPSC) Standard 16 CFR 1203 or equivalent standard for your country.
- **Always wear shoes.** Gloves, knee and elbow pads recommended.
- Ride on the correct side of the road, in a single file, and in a straight line.
- There are additional hazards of using the vehicle in areas other than private grounds.
- If possible, avoid riding at night, dusk, dawn and any other time of poor visibility.
- **IF YOU MUST RIDE AT NIGHT OR AT TIME OF POOR VISIBILITY:**
  - Use a correctly installed headlight and taillight.
  - Headlights are required by all states for nighttime riding and taillights are required in some states.
  - Battery-powered lights or flashing safety lights are also recommended.
- **MAKE YOURSELF MORE VISIBLE TO MOTORISTS.**
  - **Reflectors:** For your own safety, do not ride the bicycle if the reflectors are incorrectly installed, damaged, or missing. Make sure the front and rear reflectors are vertical. Do not allow the visibility of the reflectors to be blocked by clothing or other articles. Clean the reflectors, as necessary, with soap and a damp cloth.
  - Wear light-colored or reflective clothing, such as a reflective vest and reflective bands for your arms and legs.
  - Use reflective tape on your helmet.
- **USE EXTRA CAUTION IN WET WEATHER:**
  - Ride slowly on damp surfaces because the tires will slide more easily.
  - Allow increased braking distance in wet weather.
- **AVOID HAZARDS TO PREVENT LOSS OF CONTROL OR DAMAGE TO YOUR WHEELS:**
  - Be aware of drain grates, soft road edges, gravel or sand, pot holes or ruts, wet leaves, or uneven paving.
  - Cross railroad tracks at a right angle to prevent the loss of control.
  - Do not carry any passengers.
WARNING - TO AVOID SERIOUS INJURY:

- Do not carry any items or attach anything to your bicycle that could hinder your vision, hearing, or control.
- Do not ride with both hands off the handlebar.
- Do not tow or push the product.
- Do not modify the product.
- Replace worn or broken parts immediately with original equipment.
- If anything does not operate properly, discontinue use.

**DO NOT TAMPER WITH THE ELECTRICAL SYSTEM:** Doing so may create a short, causing the fuse to trip or other damage including fire.

**Risk of Fire:** Do not bypass fuse. Replace only with original size and type.

- The supply terminals are not to be short-circuited.
- Non-rechargeable batteries are not to be recharged.
- Batteries are to be inserted with the correct polarity.
- Rechargeable batteries are only to be charged by adults.
- The battery chargers used with the product are to be regularly examined for damage to the cord, plug, enclosure and other parts, and in the event of such damage, they must not be used until the damage has been repaired.
- Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.
- Do not use the vehicle in unsafe conditions such as snow, rain, loose dirt, mud sand or fine gravel. This may result in unexpected action such as tip over and skidding. Using the vehicle in loose dirt, mud, sand, or fine gravel may damage the electronics and gear box inside the vehicle.
- Do not overload the vehicle. Do not drive in very hot weather, components may overheat. Do not allow water or other liquids to come in contact with the battery or other electric components.
- No modifications to the motor to allow it to exceed a power output greater than 500W and a speed greater than 32 km/h

**ALWAYS WEAR YOUR HELMET WHEN RIDING THIS PRODUCT!**

Always read the user manual that comes with your helmet to make sure it is fitted and attached properly to the wearer’s head according to the fitting instructions described in the user manual.
Lithium-Ion Battery & charger Warnings:

The following safety hazards may result in serious injury or death to the user of the vehicle:

- Battery Charger for Indoor use only. Use of a battery or charger other than the supplied rechargeable battery and charger may cause a fire or explosion. Only use the supplied rechargeable battery (or lead-acid or lithium suitable replacement) and charger with the vehicle.
- Using the rechargeable battery and charger for any other product may result in overheating, fire or explosion. Never use the rechargeable battery and charger with another product.
- Explosive gases are created during charging. Charge the battery in a well ventilated area.
- Do not charge the battery near heat or flammable materials.
- All large lithium batteries are a potential fire risk and should be charged in a safe place, preferably in the middle of a garage floor.
- Never charge a lithium battery unsupervised.
- Only an adult who has read and understands the safety warnings should handle, charge or recharge of the battery.
- Contact between the positive and negative terminals may result in fire or explosion. Avoid direct contact between the terminals. Picking up the battery by the wires or charger can cause damage to the battery and may result in a fire. Always pick up the battery by its case or handles.
- Battery must be handled by adults only. Liquids on the battery may cause fire or electric shock. Always keep all liquids away from the battery and keep the battery dry.
- Contact or exposure to battery leakage may cause serious injury. If contact or exposure occurs immediately call your physician. If the chemical is on the skin or in the eyes, flush with cool water for 15 minutes. If the chemical was swallowed, immediately give the person water or milk. Do not give water or milk if the patient is vomiting or has a decreased level of alertness. Do not induce vomiting.
- Battery Posts, terminals and related accessories contain lead and lead compounds (acid), chemicals known to cause cancer, reproductive harm and are toxic and corrosive. Never open the battery.
- Tampering or modifying the electric circuit system may cause a shock, fire or explosion and permanently damage the system. Exposed wiring and circuitry in the charger may cause electric shock. Always keep the charger housing closed.
- Non-rechargeable batteries are not to be recharged.
- Batteries are to be inserted with the correct polarity.
- The supply terminals are not to be short-circuited.
- Batteries are only to be charged by adults.
- The battery chargers used with the product are to be regularly examined for damage to the cord, plug, enclosure and other parts, and in the event of such damage, they must not be used until the damage has been repaired.
Warnings and Safety

• Units shall not be operated to perform racing, stunt riding, or other maneuvers, which may cause loss of control, or may cause uncontrolled operator/passenger actions or reactions.
• Before each cycle of operation, the operator shall perform the pre-operation checks specified by the manufacturer:
  • That all guards and pads originally supplied by the manufacturer are in proper place and in serviceable condition
  • That all safety labels are in place and understood by the operator and any passenger
  • That any and all axle guards, chain guards, or other covers or guards supplied by the manufacturer are in place and in serviceable condition
  • That tires are in good condition, inflated properly, and have sufficient tread remaining.
• Persons with the following conditions shall be cautioned not to operate:
  • Those with heart conditions;
  • Pregnant women;
  • Persons with head, back, or neck ailments, or prior surgeries to those areas of the body;
  • Persons with any mental or physical conditions that may make them susceptible to injury or impair their physical dexterity or mental capabilities to recognize, understand, and perform all of the safety instructions and to be able to assume the hazards inherent in unit use.
• Components shall be maintained and repaired in accordance with the manufacturer’s specifications and using only the manufacturer’s authorized replacement parts with installation performed by dealers or other skilled persons.

Radio Frequency Information (if applicable)

⚠️ **WARNING:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment. This device or charger/adapter complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference (2) this device must accept any interference received, including interference that may cause undesired operation.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna; Increase the separation between the equipment and receiver; Connect the equipment into an outlet on a circuit different from that to which the receiver is connected; Consult the dealer or an experienced radio/TV technician for help.
This Owner’s Manual may be made for several different style products.
• Some illustrations may vary slightly from the actual product.
• Follow instructions completely.
• If the product has any parts that are not described in this manual, look for separate “Special Instructions” that are supplied with the unit.
• All features, components and accessories are not included on all models.
• Use the Index page to locate specific sections of this manual.
• Please read through this entire manual before beginning assembly or maintenance.
• If you are not confident with assembling this unit, contact customer service.
• Do not modify or transform the vehicle in any way.

⚠️ WARNING: Keep small parts away from children during assembly.

NOTE: All of the directions (right, left, front, rear, etc.) in this manual are as seen by the rider while seated.

Do not dispose of the carton and packaging until you complete the assembly of the product. This can prevent accidentally discarding parts of the unit.
1. Package Contents

- Allen Wrench
- Charger
- Keys
- 6 x Screws
- Folding mechanism
- Folding latch
- Battery lock
- Rear light
- Reflective support
- Disc brake
- Motor
- Kickstand
- Display
- Thumb throttle
- Bell
- Brake lever (disc brake)
- Light

Carefully check package contents, if anything is missing or damaged, please contact customer service.
Control Panel

- **Power Button**: When the scooter is off, press the button to turn on the scooter; when the scooter is on, press and hold for five seconds to turn off the scooter.

- **Battery Indicator**: The power level is indicated by five power lights on the control panel.

- **Light**: When the scooter is on, one-tap will turn on/off the front light and side LED lights.

- **Mode**: Double-tap to change the riding mode. Red indicates sports mode, and green light indicates comfort mode.
3. Assembly

1. Unfold the stem and close the folding mechanism until you hear a **click**. Then close the **ring lock** on the steering column (see below).

2. Connect the cable from the handlebar to the cable from the steering column.

3. Place the handlebar on the steering column. Ensure your scooter can be turned on and off.

4. Use the M3 Allen key to affix the handlebar with the 6 screws.

---

**ATTENTION:**

**Double Lock Folding Mechanism**

Make sure to complete these 2 steps before riding:

1. Unfold the stem and close the folding mechanism until you hear a **click**.
2. Then close the **ring lock** on the steering column.
4. Battery Replacement And Charging

1. Insert the key into the keyhole
2. Turn the key to unlock the battery
3. The handle jumps up automatically as soon as the battery is unlocked
4. Hold the handle and carefully pull the battery out
4. Battery Replacement And Charging with Battery Removed

1. Open the protective cap of the charging socket on the battery (Fig. 1 and Fig. 2). Make sure the charging port and charger are dry.

2. Connect the charging cable to the charging socket (Fig. 3 and Fig. 4). The charging light on the charger will light red when charging. The battery is fully charged once the charging light changes from red to green. You should stop charging at this point.

3. Disconnect the charger from the battery, close the protective cap.

4. Check the battery compartment and battery are dry before you insert the battery back into the e-scooter. Insert the battery into the e-scooter and press the handle down (Fig. 5 and Fig. 6) until you hear a click.
5. Charging with Battery Installed

1. Your scooter will be fully charged when the LED light on the charger changes from red (charging) to green.
2. After a period of full charge, the charging will cut off automatically.
3. Even so, we still don’t recommend charging your scooter for a long time more than 24 hours at one time.
4. Do not connect the charger if the charging port is wet. Cover the charging port when not use.
6. Riding Basics

Always wear a helmet and safety gear so to avoid falling and injury when riding the scooter, as shown.

1. Turn the power on, and check the electricity indicator.

2. Stand on the deck with one foot and propel yourself with the other foot.

3. When the electric scooter begins to glide, put both feet on the deck and press the accelerator. The speed will be kept above 3.1mph (5km/h) when using the throttle.

4. Release the throttle and to reduce the speed slowly. Squeeze the brake lever to stop.

5. Tilt your body towards the steering direction as you turn, and turn the handlebar slowly.
10. Folding and Unfolding

To fold:
1. Open the ring lock on the steering column
2. Carefully pull the folding lever forward
3. Tilt the steering column backwards and attach the clip of the handlebar (next to the thumb brake) on the folding latch of the rear fender
4. Hold steering column to carry the scooter.

To unfold:
1. Unhook the folding latch from the handlebar clip
2. Carefully pull the steering column forward
3. Carefully fold up the folding lever.
4. Close the ring lock on the steering column.
**GENERAL:** The vehicle should be checked for damage, missing or badly worn parts before each use. If any part of the product does not operate properly – discontinue use.

- Check the tightness of the fasteners before each use. Replace any fasteners that are damaged.
- Inspect the product frequently. Failure to inspect the product and to make repairs or adjustments, as necessary, can result in injury to the rider or to others. Make sure all parts are correctly assembled and adjusted as written in this manual and any “Special Instructions”.
- Immediately replace any damaged, missing, or badly worn parts.
- Make sure all fasteners are correctly tightened as written in this manual and any “Special Instructions”. Parts that are not tight enough can be lost or operate poorly. Over tightened parts can be damaged. Make sure any replacement fasteners are the correct size and type.
- Check the tightness of the wheels.

**NOTE:** If the drive wheel is not tight, it will not engage the gears and the vehicle will not run.
- Ensure the battery bracket is securely in place before use.
- Prolonged exposure to UV-rays, rain, and outdoor elements may damage the enclosure materials. Store the vehicle indoors when not in use. Keep it away from sources of heat, such as stoves and heaters.
- Keep the product clean and free of dirt, dust and water. This will prolong the useful life of the product.
- Clean the vehicle with a soft, dry cloth. To restore shine to plastic parts, use a non-wax furniture polish. Do not use automotive wax, abrasive cleaners or wash the vehicle with soap and water.

**NOTE:** If the instructions in this manual or any “Special Instructions” are not sufficient for you, please contact customer service.

**CAUTION:** Self-locking nuts and other self-locking devices may lose their effectiveness when re-used.

**Battery Storage and Disposal**

The drive battery should be charged when depleted, or if not used regularly, once a month. Failure to charge the battery as directed will cause permanent damage to the battery and will void the warranty.

Follow these guidelines if the battery is removed:

- Do not store battery in extreme hot or cold temperatures.
- Wipe the battery clean with a dry cloth prior to storage. Wash cloth separate from other clothes.

**BATTERY DISPOSAL:**

- The sealed lead-acid battery must be recycled or disposed of in an environmentally sound manner.
- Do not dispose of battery in a fire. The battery may explode or leak acid.
- Do not dispose of the battery in household trash. The incineration, landfilling or mixing of sealed lead-acid batteries with household trash is prohibited by law.
- Return an exhausted battery to a federal or state approved lead-acid battery recycler, such as a local seller of automotive batteries (check local battery disposal regulations).
• Check regularly to ensure the disc brake is well aligned.
• You need the M5 Allen key to adjust the disc brake.

1. Slightly loosen the screw on the brake cable lever until the brake cable lever can be moved.
2. Loosen the brake cable (if the brake too tight) or tighten the brake cable (if the brake is too loose).
3. Hold the brake cable in the desired position and retighten the screw on the brake cable lever.

• The setting is correct if the brake shoes are a max. 1 mm distance from the brake disc.
• The disc brake may squeak when in use until it is broken in. This is normal and does not affect the brake's function or performance.
Lithium-Ion Battery Storage and Disposal

Do not leave batteries unused for extended periods of time, either in the product or in storage. When a battery has been unused for 6 months, check the charge status and charge or dispose of the battery as appropriate.

STORAGE:
• Charge or discharge the battery to approximately 50% of capacity before storage.
• Charge the battery to approximately 50% of capacity at least once every six months.
• Remove the battery and store it separately from the product.
• Store the battery at temperatures between 5 °C and 20 °C (41 °F and 68 °F).
• Do not store battery in extreme hot or cold temperatures.
• Wipe the battery clean with a dry cloth prior to storage. Wash cloth separate from other clothes.

BATTERY DISPOSAL:
• Lithium-Ion batteries must be recycled or disposed of in an environmentally sound manner.
• Lithium-Ion batteries are subject to disposal and recycling regulations that vary by country and region. Always check and follow your applicable regulations before disposing of any battery.
• Do not dispose of battery in a fire. The battery may explode or leak acid.
• Do not dispose of the battery in household trash. The incineration, land filling or mixing of sealed Li-ion/lead-acid batteries with household trash is prohibited by law.
• Return an exhausted battery to a federal or state approved Li-ion/lead-acid battery recycler. (check local battery disposal regulations).
# Troubleshooting Guide

The following are examples of potential problems. Completely read through this manual and the troubleshooting guide table before calling. If you still need help resolving the problem please contact Customer Service.

**NOTE:** Vehicle should be turned off and fully charged before doing troubleshooting.

</table>
BEFORE YOU CALL SUPPORT:

1. What is the model and date code?
2. When was the product purchased?
3. Has the product ever worked for a time or has never worked at all since purchase?
   • Yes, When did the product last operate correctly?
   • No, were the battery wires connected?
4. How long was the battery charged?
5. Is the charger plugged into the unit when you try to operate the product?
   • (The unit will not operate with charger plugged in)
6. Do any lights or sounds come on when you power the product on?
   • Yes, Does the lights and sounds go away when you press the drive switch?
7. When you press the drive switch, does an electric motor start?
   • Yes, Did you check that the correct drive wheel was installed?
   • Yes, Does the insert in the gearbox rotate?
Identification Record and Registration

**NOTE:** This information is only available on the product itself.

**BICYCLES:**
Each bicycle has a Recovery Code stamped into the frame. The Recovery Code can be found on the bottom of the crank housing or the bottom of the frame.

**FOR PRODUCTS OTHER THAN BICYCLES,** please look for the Product ID/Model number tag. Record these numbers:

![XXXXXM DDDYY ID](image)

Huffy Corp

**Model Name:**
Limited Warranty - US

General:
Part or model specifications are subject to change without notice.
This Limited Warranty is the only warranty for the product. ALL WARRANTIES OTHER THAN STATED HEREIN ARE DISCLAIMED INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, TO THE EXTENT ALLOWABLE BY APPLICABLE LAW. ALL LIABILITY FOR INCIDENTAL, PUNITIVE, SPECIAL, OR CONSEQUENTIAL DAMAGES ARE EXPRESSLY DISCLAIMED, TO THE EXTENT ALLOWABLE BY APPLICABLE LAW.
The only uses for this product are described in this manual.
Warranty registration is not required.
The Limited Warranty extends only to the original consumer and is not transferable to anyone else.

What does this Limited Warranty cover?
This Limited Warranty covers defects in workmanship and materials for all parts of the product except those indicated below as not warranted.

What must you do to keep the Limited Warranty in effect?
This Limited Warranty is effective only if:
• Product is completely and correctly assembled.
• Product is used under normal conditions for its intended purpose (see the following section for excluded activities).
• Product receives all necessary maintenance and adjustments.
• Product is used for general transportation and recreational use only.

What is not covered by this Limited Warranty?
This product is designed for recreational use only.
This Limited Warranty does not cover normal wear and tear, normal maintenance items, or any damage, failure, or loss that is caused by improper assembly, maintenance, adjustment, storage, or use of the product. This Limited Warranty does not extend to future performance.

This Limited Warranty will be void if the product is ever:
• Used in any competitive sport.
• Ridden by more than one person at a time.
• Exceeds weight limit.
• Rented, sold, or given away.
• Used in a manner contrary to the instructions and warnings in this Owner’s Manual.

What will The Manufacturer do?
Manufacturer’s sole and exclusive obligation under this Limited Warranty is to repair and/or replace, at its sole option, any covered defect in workmanship or materials.

How do you get service?
Contact the Customer Service Department.
• See included list for Customer Contact information.

What rights do you have?
This Limited Warranty gives you specific legal rights. You may also have other rights which vary from State to State.

For how long does this Limited Warranty last?
• When used in this Limited Warranty, the phrase “for life” means for as long as the original consumer owns the product.
• Drive Battery - 90 days
• Electronics - 90 days
• All other Components - 6 months
